

## **TRANSPARENCY REPORT**

**Date: June 14, 2024 - 6:28 PM**

on June 14, 2024 at 6:28 PM we received an email from attorney Kathleen H. Klaus of the Maddin Hauser law firm about the article about "smutty.com" and "Silverstein Legal" which is another law firm that has mostly clients in the porn industry. The title of the [email written](#) by this law firm was "Demand for Retraction" using the email address "kklaus@maddinhauser.com" along with an attached PDF document and a notification to open the [attached file](#).

The attached document mentions that they are the attorneys for Corey D. Silverstein, Kevin Toll, Lawrence Waters and the law firm "Silverstein Legal." A law firm representing another law firm contacted us about our article uploaded to "medium.com" written by "Claudia Lopez" which exposed a pedophile network that distributed Child Sexual Abuse Material (CSAM) that used the website smutty as a distribution center. The law firm "Silverstein Legal" was used for DMCA issues by shell companies owned by "Ortnec Services LTD" based in Cyprus.

The lawyer seemed to want to take everything about "Silverstein Legal" out of context so she could use the word "defamation" in her legal document. In our opinion, these people tried to decontextualize everything we denounced in the article we published on June 16 where we refute these people and expose their hypocrisy and blatant lies.

- [I am being pressured by the founder of smutty and lawyers from Silverstein Legal](#)

After redoubling our efforts and writing an article about this, neither of the 2 law firms decided to respond in any way and to this day we have not heard anything about it. For us this is called "a dog that barks does not bite" or "they throw the stone but hide their hand." ;)

**People involved: Silverstein Legal, Maddin Hauser , Corey D.**

**Silverstein, Kevin Toll , Lawrence G Waters and Kathleen H. Klaus**
